JavaScript

CMS & E-Commerce

WordPress WooCommerce

Deployment & Tools

Render Vercel GitHub Paystack
Copilot

Growth & Marketing

Google Business Profile SEO
Google Ads Meta Ads TikTok Ads

EDUCATION

B.Sc. Computer Science
Undergraduate

PROFILE

Full-stack web developer and software engineer building fast, reliable products end-to-end — from FastAPI/Node backends and PostgreSQL data layers to polished React and WordPress front ends. Beyond code, I help businesses actually get found and get sales: setting up and optimizing Google Business Profiles, search engine optimization, and running Google, Meta, and TikTok ad campaigns that turn visibility into revenue. I also teach web development — physically and remotely — to kids, teens, and beginners.

SERVICES

Full-Stack Web Development

Custom web apps and platforms built with FastAPI/Django, Node.js, React, Next.js and PostgreSQL — from MVP to production.

Google Business & SEO

Google Business Profile setup and optimization, on-page and local SEO to help businesses rank and get discovered.

Web Development Training

One-on-one and group coaching for kids, teens, and beginners — delivered physically and remotely.

WordPress & E-Commerce

Business and store websites built on WordPress/WooCommerce, tailored designs, and reliable hosting setup.

Ads Management

Google, Meta, and TikTok ad campaigns planned, launched, and optimized to drive measurable sales growth.

Content & Brand Presence

TikTok content strategy and presentation design to help businesses and ministries build online presence.

FEATURED PROJECTS

ProfitPilot

BUSINESS MANAGEMENT SOFTWARE

An all-in-one platform for managing day-to-day business operations, built to help small businesses run more efficiently.

FastAPI · PostgreSQL · React · Tailwind CSS

Cherry

DATING & MATCHMAKING WEB APP

A matchmaking platform with user profiles and matching logic, deployed as a split Django backend and React/Vite frontend.

Django · React · Vite · Render · Vercel

Quinn Shoes Hub

FULL-STACK E-COMMERCE PLATFORM

A modern shoe store platform with product catalog, checkout, and payments, evolved from prototype into a production build.

A full-stack build applying end-to-end engineering practices across backend, frontend, and deployment.

FastAPI / Node.js · React · PostgreSQL

Xycene Energy

WORDPRESS BUSINESS WEBSITE

A professional company website built and launched on WordPress for an energy sector business.

WordPress

Jad Extension

WORDPRESS E-COMMERCE STORE

An online store built with WordPress/WooCommerce for retail product sales.

WordPress · WooCommerce

TEACHING & MENTORSHIP

Teach practical web development to kids, teens, and beginners — both in-person and remotely. Sessions cover HTML/CSS/JavaScript fundamentals through to full-stack concepts, guiding students from first line of code to real, deployed projects.
